Safeguarding

EVERYONE'S RESPONSIBILITY

Consideration

The session explores safeguarding roles and responsibilities and will touch upon issues of a sensitive nature.

Please be reminded of mutual care and respect

Today's Objectives

To know and understand:

1. Your duties in respect of safeguarding legislation
2. Local context
3. Level of Need
4. Effective safeguarding practices - promote the welfare of children and protection from 'significant harm'
5. How to manage disclosures (5 R's)
6. What behaviours, disclosures and incidents to report

What would you do?

You are Ethan's teacher. At the end of the lesson, he stays behind to tell you that mum and dad argue and shout a lot at home. Dad can get quite angry and slams and kicks doors. Mum cries. It upsets Ethan and his older brother, who has tried to talk to mum and dad about it, but the situation has not changed.

What is Safeguarding?

Safeguarding and promoting the welfare of children:

- ❑ providing help and support to meet the needs of children as soon as problems emerge
- ❑ protecting children from maltreatment, whether that is within or outside the home, including online

- ❑ ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- ❑ taking action to enable all children to have the best outcomes

KCSIE(2025), para.3.

Child Protection (part of safeguarding practices), refers explicitly to:

- ❑ Protect children identified as **'suffering, or are likely to suffer, significant harm'**.

Children Act (1989)

Child Protection Plans by Abuse Category (England)

Child Protection Plans by Abuse Category (Richmond)

To protect a child(ren) who is suffering, or is likely to suffer, significant harm.

Child in Need

‘a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child who is disabled.’

Children in Need Assessments (Richmond)

'It could happen here'

- ❑ *Safeguarding and promoting the welfare of children is **everyone's responsibility***
- ❑ Piecing the puzzle together - everyone has a role to play in identifying concerns, sharing information and taking prompt action.

- ☐ Behaviour and attendance – are these indicators of safeguarding concerns?
- ☐ Bullying – why is it taking place and what is impact is it having on children?
- ☐ It can be hard to get children with SEND the help they needed.
- ☐ Difficult to engage with, or effectively challenge, parents.
- ☐ Difficult to get the information needed. Delays in sharing information.
- ☐ Teachers are well placed to recognise and respond to abuse - ongoing concerns or changes in circumstances
- ☐ Teachers need resources and knowledge to keep children safe online
- ☐ In high-achieving schools, children are more worried about disclosing abuse

Teachers 'struggle to deal with classroom sexual abuse'

Teachers say they do not feel equipped to deal with peer-on-peer sexual abuse because they have had no training.

More than half said they did not think adequate procedures were in place in their schools to deal with abuse.

Many are also unsure how to deliver elements of a new sex-and-relationships curriculum, which the government says third parties might now help with.

Reports of sex abuse between children double in 2 years (Sep 2021)

Managing Disclosures

The 5 R's

Recognise: *'a child is vulnerable if he/she*

- ☐ is disabled or has certain health conditions and has specific additional needs
- ☐ has SEND (whether or not they have a statutory Education, Health and Care plan)

Abuse, Neglect and Exploitation

“Inflicting harm or failing to act to prevent harm”

- ❑ abuse, neglect and safeguarding issues are rarely standalone events and cannot be covered by one definition or one label.
- ❑ Report any concerns to DSL

Indicators of Abuse and Neglect

Physical

- ❑ hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating, a parent / carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional

- ❑ Child feels worthless, unloved, inadequate, used to meet the needs of another. No opportunities to express views, 'made fun of', age / developmentally inappropriate expectations, seeing or hearing the ill-treatment of another, bullying (including cyberbullying), feel frightened or in danger, or the exploitation or corruption of children.

Neglect

- ❑ substance abuse during pregnancy. Failing to: provide adequate food, clothing and shelter, to protect a child from physical and emotional harm or danger; ensure adequate supervision, access to medical care or treatment. Ignore a child's basic emotional needs.

Sexual

- ❑ physical contact, penetration or non-penetrative acts such as masturbation, kissing, rubbing, and touching outside of clothing. Children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse.

Specific Safeguarding Issues

Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE) *(both are abuse)*

- ❑ imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity
- ❑ Usually in exchange for something the victim needs or wants, or increased status of the perpetrator through threat of violence
- ❑ Girls experience often very different
- ❑ CSE is sexual abuse and can be one-off or even unknown to victim (sharing of images). Includes 16- and 17-year-olds who gave consent to sex

Specific Safeguarding Issues

Female Genital Mutilation

- ❑ Legal duty on teachers - ***must*** report to police
- ❑ Other Honour-based abuse – Forced Marriage

Radicalisation and Extremism (Prevent)

- ❑ We have a duty to prevent people being drawn into terrorism (Counter-terrorism Act 2015)
- ❑ Extremism – *‘vocal or active opposition to fundamental British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs.*
- ❑ Some children are at risk of being radicalised; adopting beliefs and engaging in activities which are harmful, criminal or dangerous - online and offline.

Other Safeguarding Issues

Child on Child abuse

- ☐ Even if there are no reports, does not mean it is not happening
- ☐ Importance of challenging inappropriate behaviour. Sexual harassment – 'just banter', 'boys being boys' – creates an unsafe environment and normalises abusive behaviour
- ☐ Bullying
- ☐ Abuse within intimate relationships
- ☐ Physical abuse
- ☐ Sexual violence
- ☐ Sexual harassment
- ☐ Sexual activity without consent
- ☐ Sharing of images
- ☐ Up-skirting

Bullying, cyberbullying and discrimination are the most common forms of harmful aggression experienced by children

Respond to Disclosures

Beth is known for being an inquisitive and chatty member of the class. Recently, however, you have noticed a complete change in her behaviour. For the last couple of weeks, Beth has been much quieter and withdrawn. You also notice that although it is a very hot summer and Beth wore dresses a few weeks ago, she has recently been consistently wearing clothes that cover her whole body.

Beth approaches you and asks if she can talk to you about something.

How do you respond?

Responding to Disclosures

- ❑ *‘Children may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and/or they may not recognise their experiences as harmful’, (KCSIE, 2025, para.17).*
- ❑ *‘Children may not find it easy to tell staff about their abuse verbally. Children can show signs or act in ways that they hope adults will notice and react to’, (KCSIE, 2025, para.471)*
 - ❑ Children are no more likely to mislead than adults, particularly in relation to abusive incidents (Spence & Flyn 1990).
 - ❑ 4th disclosure!!
 - ❑ Children may retract allegations – this does not discredit the allegation.
 - ❑ Never examine a child or ask them to show you bruises, etc.
 - ❑ Empathy – but do not touch / pat / hug – different meaning to victim of abuse
 - ❑ **We must always take a child seriously.**

Record a Disclosure

- ❑ Take notes – but check the child is comfortable with this
- ❑ Written record (ideally within 1hr). Can become court evidence.
 1. Clear, comprehensive summary of the concern

What the child said (their language), your responses, emotional context, repeated statements, environment disclosure was made (date, time, location, others present)
 2. Details of how concern was followed up

Who reported to? When? How?
 3. Note of any action taken, decisions reached and the outcome.

Prevents / delays the appropriate support reaching the child – may allow significant harm to continue

- ☐ failing to act on and refer the early signs of abuse and neglect
- ☐ poor record keeping;
- ☐ failing to listen to the views of the child;
- ☐ failing to re-assess concerns when situations do not improve;
- ☐ not sharing information with the right people within and between agencies;
- ☐ sharing information too slowly; and
- ☐ a lack of challenge to those who appear not to be taking action

Referring Disclosures (C-SPA)

When making a referral...

- ☐ What are you seeking from this referral?
- ☐ What is the Level of need / risk?
- ☐ Is there serious risk of harm?
- ☐ Is consent needed?

All Requests for Support at Levels 2,3 or 4 of Effective Family Resilience are made through Surrey Children's Single Point of Access

Initial Child Protection Conference
Child Protection / Child in Need Plan

Core Groups followed by review
processes

Child Protection Conference

- ❑ **SHARE** - Confidential meeting between parents, children services, child protection workers and other professionals to discuss the welfare of a child(ren)
- ❑ **ASSESS** - the likelihood of the child suffering significant harm in the future.
- ❑ **NEXT STEPS** - what future action is required to safeguard and promote the welfare of the child/children with planned developmental outcomes.
- ❑ Meetings can be:
 - ❑ Initial – within 15 days of strategy meeting
 - ❑ Review – first within 3 months and then every 6
 - ❑ Unborn child – from 3 months to birth

The Child Protection Plan

- ❑ Identifies needs of the child and support required to safeguard and promote the welfare of the child.
- ❑ Necessary actions to achieve this
- ❑ Identifies everyone's **roles and responsibilities.**
- ❑ Sets out a timeframe – including visits by social worker, who becomes the lead professional (visits must be every 10 days)
- ❑ Family develop and contribute to the plan
- ❑ Announced visits by other professionals
- ❑ Is written in clear way and includes a contingency plan

Review of the Child Protection Plan

Core Group

- ☐ multiple agencies responsible for reviewing and further developing the plan – what next steps are required and by whom?
- ☐ Reviews must take place 10 days after conference, at 6 weeks and then every 2 months

Review Conference – is the child **continuing to suffer, or likely to suffer, significant harm?**

- ☐ review progress against planned outcomes
- ☐ Ensure child remains safeguarded
- ☐ Should CP Plan continue or be stepped down to Child in Need plan

What Next?

Public Law Outline and Care Proceedings

- ❑ **Legal Gateway meeting** - plan not working. Child remains at risk of significant harm
- ❑ Letter of intent to explain to parents the concern/s, what needs to change with clear timescales, actions that will happen and advising the parents that a meeting will take place with parents (who have the right to free legal representation).
- ❑ Possible care proceedings and removal of the child to a safe place which may be with friends and family, foster care or a residential unit.

How will today's session
influence your future
practice?

What would you do?

You are Ethan's teacher. At the end of the lesson, he stays behind to tell you that mum and dad argue and shout a lot at home. Dad can get quite angry and slams and kicks doors. Mum cries.
