

PGCE Secondary with QTS

Foundation Phase Training Plan

September 2025

To

December 2025

PGCE Secondary with QTS

This document is to be used as a supportive guide during your Foundation Phase placement. It provides a scaffold to structure each week's weekly training meeting (WTM), your observations of expert colleagues and your own practice. The scaffold should not limit or be the only focus of your discussions and experiences but should be the starting point each week. Ensure you address each of the following aspects every week:

- **Areas to include as part of WTM discussions.**
- **Observations of expert colleagues**
- **Areas to include in your practice.**
- **Relevant research to link theory and practice.**

Link theory to practice

When engaged in deeper reflection you should use this document to support your thinking and learning dialogue with expert colleagues and / or your mentor. The relevant research found on each page gives a summary and link to further reading. In your deeper reflections, you will consider your plans, your actions, resources / tasks used and what focus you placed on individuals or groups. Ask yourself these questions during learning conversations with others.

- What made you plan a task / take an action / use a resource / help an individual?
- What evidence do you have for doing so?
- What impact do you think this had?

Explain actions and decisions using research.

PGCE Secondary with QTS

Week in Phase	Themes
1 w/c 29/09/25	How Pupils Learn (ITTECF2) <i>Avoid overloading working memory</i> Classroom Practice (ITTECF4) <i>Plan effective lessons</i>
ITAP Week w/c 06/10/25	Behaviour and Routines Managing Behaviour (ITTECF7) <i>Establish effective routines and expectations</i>
2 w/c 13/10/25	High Expectations (ITTECF1) <i>Demonstrate consistently high behavioural expectations</i> Managing Behaviour (ITTECF7) <i>Develop a positive, predictable, and safe environment for pupils.</i>
3 w/c 20/10/25	Subject and Curriculum (ITTECF3) <i>Deliver a carefully sequenced and coherent curriculum, and supporting pupils to build increasingly complex mental models</i> Classroom Practice (ITTECF4) <i>Stimulate pupil thinking and check for understanding</i>
Half Term w/c 27/10/25 <i>Trainees to follow school half term</i>	
4 w/c 03/11/25	Subject and Curriculum (ITTECF3) <i>Support pupils to build increasingly complex models</i> Political Impartiality, British Values and RSE (Part 2) <i>Teachers uphold public trust in the profession and maintain high standards of ethics and behaviour, within and outside school</i>
5 w/c 10/11/25	How pupils learn (ITTECF 2) <i>Build on pupils' prior knowledge</i> Adaptive Teaching (ITTECF5) <i>Develop an understanding of different pupil needs</i>
6 w/c 17/11/25	Adaptive Teaching (ITTECF5) <i>Provide opportunity for all pupils to experience success</i> Assessment (ITTECF6) <i>Provide high quality feedback</i>
ITAP Week w/c 24/11/25	Effective Questioning Classroom Practice (ITTECF4) <i>Stimulate pupil thinking and check for understanding</i>
7 w/c 01/12/25	Adaptive Teaching (ITTECF5) <i>Develop an understanding of different pupil needs</i> Managing Behaviour (ITTECF7) <i>Build trusting relationships. Motivate pupils</i>
8 w/c 08/12/25	Equality, Diversity, and Inclusion (Part 2)
9 w/c 15/12/25	Professional Behaviours (ITTECF8) <i>Develop as a professional</i>

Record attendance on Abyasa			

Professional Studies Theme(s)
How Pupils Learn (ITTECF2) <i>Avoid overloading working memory</i> Classroom Practice (ITTECF4) <i>Plan effective lessons</i>
How to develop the essential skills
We recognise that it is not possible to build in practice opportunities in relation to every skill, and therefore, for this week, decide which skills you will: a) aim to observe in expert colleagues, b) discuss and explore in your mentor meetings, and c) aim to develop through trying a particular approach in your own practice and seeking feedback specifically on this. Please note: these skills will be revisited throughout the year, and thus there is no expectation that you develop all of these skills this week.
Essential Skills to focus on this week
Section 2 - Taking into account pupils' prior knowledge when planning how much new information to introduce. - Breaking complex material into smaller steps (e.g. using partially completed examples to focus pupils on the specific steps). - Reducing distractions that take attention away from what is being taught (e.g. keeping the complexity of a task to a minimum, so that attention is focused on the content). Section 4 - Using modelling, explanations and scaffolds, acknowledging that novices need more structure early in a domain. - Enabling critical thinking and problem solving by first teaching the necessary foundational content knowledge. - Removing scaffolding only when pupils are achieving a high degree of success in applying previously taught material. - Using evidence of prior learning to provide sufficient opportunity for pupils to consolidate and practise applying new knowledge and skills. Breaking tasks down into constituent components when first setting up independent practice (e.g. using tasks that scaffold pupils through meta-cognitive and procedural processes).
Relevant research to link theory and practice
To support students to learn in your subject, it is essential to retrieve existing knowledge and build upon it. When introducing new concepts modelling is a useful tool to support pupil understanding. Building on foundational knowledge and gradually removing scaffolds supports pupils to develop a critical understanding in your subject. Exemplar strategies include retrieval practice and dual coding. A detailed review from the EEF can be found at EEF (2021) Cognitive science in the classroom evidence and practice review

Intensive Training and Practice (ITaP) Week
W/C 6th October 2025

Intensive Training and Practice (ITaP) provides our trainees with the opportunity to focus on a specific area of their practice with support from both the St Mary's team and expert colleagues in school. This week's focus is **behaviour and routines** and will involve trainees completing focused tasks, which mentors may support by working with the trainees in the ways outlined below.

Day	Trainees will be asked to...	Mentors will be asked to support trainees by...
Monday – Centre based training	University-based (online) <i>Trainees are required to attend university sessions on this day.</i>	
Tuesday (in school)	Observe expert colleagues and begin to implement behavioural expectations and routines in line with school policy. Consider how relationships and routines look in different parts of the school and times of day.	Explicitly modelling and discussing the approach to behaviour and routines in the school and classroom. Supporting trainees in observing a range of colleagues with a focus on this area.
Wednesday - Centre based training	University-based (on campus) <i>Trainees are required to attend university sessions on this day.</i>	
Thursday (in school)	Be observed managing pupil behaviour by using routines and relationships to effectively motivate pupils to engage with learning.	Provide feedback and an opportunity for reflective discussion on how to provide consistent behavioural expectations and maintain routines.
Friday – Centre based training	University-based (online) <i>Trainees are required to attend university sessions on this day.</i>

Professional Studies Theme(s)
High Expectations (ITTECF1) Demonstrate <i>consistently high behavioural expectations</i>. Managing Behaviour (ITTECF7) <i>Develop a positive, predictable, and safe environment for pupils.</i>
How to develop the essential skills
We recognise that it is not possible to build in practice opportunities in relation to every skill, and therefore, for this week, decide which skills you will: a) aim to observe in expert colleagues, b) discuss and explore in your mentor meetings, and c) aim to develop through trying a particular approach in your own practice and seeking feedback specifically on this. Please note: these skills will be revisited throughout the year, and thus there is no expectation that you develop all of these skills this week.
Essential Skills to focus on this week
Section 1 - Creating a culture of inclusion, respect and trust in the classroom that supports all pupils to succeed (e.g. by modelling the types of courteous behaviour expected of pupils). - Teaching and rigorously maintaining clear behavioural expectations (e.g. for contributions, volume level and concentration). - Applying rules, sanctions and rewards consistently in line with school policy, including where individual pupils have an agreed tailored approach, escalating behaviour incidents as appropriate. - Acknowledging and praising pupil effort and emphasising progress being made. Section 7 - Establishing a supportive and inclusive environment with a predictable system of reward and sanction in the classroom. - Working alongside colleagues as part of a wider system of behaviour management (e.g. recognising responsibilities and understanding the right to assistance and training from senior colleagues particularly where pupils exhibit unacceptable behaviours). - Giving manageable, specific and sequential instructions. - Checking pupils' understanding of instructions before a task begins. - Using consistent language and non-verbal signals for common classroom directions. - Using early and least-intrusive interventions as an initial response to low level disruption. Responding quickly to any behaviour or bullying that threatens physical or emotional safety.
Relevant research to link theory and practice
It is imperative that teachers meet o know their students as individual and proactively teach positive learning behaviours. A summary of research improving behaviour in school can be found at research summaries on the partnership portal. The original guidance report from the EEF can be found at Education Endowment Foundation (2021) Improving Behaviour in Schools Guidance Report.

Record attendance on Abyasa			

Professional Studies Theme(s)
Subject and Curriculum (ITTECF3) <i>Deliver a carefully sequenced and coherent curriculum, and supporting pupils to build increasingly complex mental models</i>
Classroom Practice (ITTECF4) <i>Stimulate pupil thinking and check for understanding</i>
How to develop the essential skills
We recognise that it is not possible to build in practice opportunities in relation to every skill, and therefore, for this week, decide which skills you will: A) aim to observe in expert colleagues, B) discuss and explore in your mentor meetings, and C) aim to develop through trying a particular approach in your own practice and seeking feedback specifically on this. Please note: these skills will be revisited throughout the year, and thus there is no expectation that you develop all of these skills this week.
Essential Skills to focus on this week
Section 3 - Identifying essential concepts, knowledge, skills and principles of the subject and providing opportunity for all pupils to learn and master these critical components. - Ensuring pupils' thinking is focused on key ideas within the subject. - Working with experienced colleagues to accumulate and refine a collection of powerful analogies, illustrations, examples, explanations and demonstrations. - Using resources and materials aligned with the school curriculum. (e.g. textbooks or shared resources designed by experienced colleagues that carefully sequence content) - Being aware of common misconceptions and discussing with experienced colleagues how to help pupils, master important concepts. Section 4 - Planning activities around what you want pupils to think hard about. - Including a range of types of questions in class discussions to extend and challenge pupils (e.g. by modelling new vocabulary or asking pupils to justify answers). Elaborate on and query pupil contributions to support pupils' oral language skills, and knowledge development. - Providing appropriate wait time between question and response where more developed responses are required. - Considering the factors that will support effective collaborative or paired work (e.g. familiarity with routines, whether pupils have the necessary prior knowledge and how pupils are grouped) Providing scaffolds for pupil talk to increase the focus and rigour of dialogue.
Relevant research to link theory and practice
Effective teachers introduce new material in steps, explicitly linking new ideas to what has been previously studied and learned. A summary of Rosenshine's research is available where the research summaries are held in the partnership portal. The relevant research can be found here Rosenshine (2012)

Week number	4	Week Commencing	03/11/2025

Formal written feedback at least 1 required this week			
Record attendance on Abyasa			

Professional Studies Theme(s)
Subject and Curriculum (ITTECF3) <i>Support pupils to build increasingly complex models.</i> Political Impartiality, British Values and RSE (Part 2) <i>Teachers uphold public trust in the profession and maintain high standards of ethics and behaviour, within and outside school.</i>
How to develop the essential skills
We recognise that it is not possible to build in practice opportunities in relation to every skill, and therefore, for this week, decide which skills you will: a) aim to observe in expert colleagues, b) discuss and explore in your mentor meetings, and c) aim to develop through trying a particular approach in your own practice and seeking feedback specifically on this. Please note: these skills will be revisited throughout the year, and thus there is no expectation that you develop all of these skills this week.
Essential Skills to focus on this week
Section 3 • Discussing and analysing with expert colleagues the rationale for curriculum choices, the process for arriving at current curriculum choices and how the school's curriculum materials inform lesson preparation. • Balancing exposition, repetition, practice of critical skills and knowledge. • Revisiting the big ideas of the subject over time and teaching key concepts through a range of examples. • Drawing explicit links between new content and the core concepts and principles in the subject. Part 2 • treating pupils with dignity, building relationships rooted in mutual respect, and at all times observing proper boundaries appropriate to a teacher's professional position • ensuring that personal beliefs are not expressed in ways which exploit pupils' vulnerability or might lead them to break the law. • not undermining fundamental British values, including democracy, the rule of law, individual liberty and mutual respect, and tolerance of those with different faiths and beliefs • develop an understanding of RSE and PSHE content and delivery
Relevant research to link theory and practice
To support students to learn in your subject, it is essential to retrieve existing knowledge and build upon it. When introducing new concepts modelling is a useful tool to support pupil understanding. Building on foundational knowledge and gradually removing scaffolds supports pupils to develop a critical understanding in your subject. Weekly task reminders			Completed ✓ or X
Observation notes 1 required this week			
Formal Written Feedback 2 required this week			
Discuss with PCM opportunities to have formal feedback over next 3 weeks.			

Professional Studies Theme(s)
Adaptive Teaching (ITTECF5) <i>Provide opportunity for all pupils to experience success.</i> Assessment (ITTECF6) <i>Provide high quality feedback</i>
How to develop the essential skills
We recognise that it is not possible to build in practice opportunities in relation to every skill, and therefore, for this week, decide which skills you will: a) aim to observe in expert colleagues, b) discuss and explore in your mentor meetings, and c) aim to develop through trying a particular approach in your own practice and seeking feedback specifically on this. Please note: these skills will be revisited throughout the year, and thus there is no expectation that you develop all of these skills this week.
Essential Skills to focus on this week
Section 5 • Adapting lessons, whilst maintaining high expectations for all, so that all pupils have the opportunity to meet expectations. • Balancing input of new content with the revisiting of prior learning so that pupils master important concepts. • Making effective use of teaching assistants and other adults in the classroom. • Making effective and judicious use of specialist technology to support pupils with SEND. Section 6 • Focusing on specific actions for pupils and providing time for pupils to respond to feedback. • Appreciating that pupils' responses to feedback can vary depending on a range of social factors (e.g. the message the feedback contains or the age of the child). • Scaffolding self-assessment by sharing model work with pupils, highlighting key details. • Thinking carefully about how to ensure feedback is specific and helpful when using peer- or self-assessment.
Relevant research to link theory and practice
Working closely with TAs and understanding how TAs supplement your teaching is central to strong inclusive teaching practices. Further guidance and recommendations from research is available from EEF (2020) Special Educational Needs in Mainstream Schools Guidance Report

Intensive Training and Practice (ITaP) Week
W/C 24th November 2025

Intensive Training and Practice (ITaP) provides our trainees with the opportunity to focus on a specific area of their practice with support from both the St Mary's team and expert colleagues in school. This week's focus is **effective questioning** and will involve trainees completing focused tasks, which mentors may support by working with the trainees in the ways outlined below.

This week is the second ITaP week and will also support trainees in preparation for the M Level Professional Studies Essay. The week will seek to support development of the necessary skills through a blend of centre-based and school-based experiences and learning.

This ITAP is designed to support trainees' ability to 'provide high quality feedback' (ITTECF4), by:

- Focusing on specific actions for pupils and providing time for pupils to respond to feedback.
- Appreciating that pupils' responses to feedback can vary depending on a range of social factors (e.g. the message the feedback contains or the age of the child).
- Scaffolding self-assessment by sharing model work with pupils, highlighting key details.
- Thinking carefully about how to ensure feedback is specific and helpful when using peer- or self-assessment

Day	Trainees will be asked to...	Mentors will be asked to support trainees by...
Monday – Centre based training	University-based (online) <i>Trainees are required to attend university sessions on this day.</i>	
Tuesday (in school)	Observe the teaching of others to consider how questioning is used to provide high quality feedback.	Reviewing observation sheets and enabling reflective discussions on the variety of ways questioning can be used in the classroom.
Wednesday - Centre based training	University-based (on campus) <i>Trainees are required to attend university sessions on this day.</i>	
Thursday (in school)	Plan and deliver a lesson with a focus on effective questioning. Following the lesson, trainees should complete the lesson evaluation.	Observe trainees and provide specific feedback focused on the use of effective questioning using the sheet provided.
Friday – Centre based training	University-based (online) <i>Trainees are required to attend university sessions on this day.</i>	

Week number	7	Week Commencing	01/12/2025
Weekly task reminders			Completed ✓ or X
Observation notes 1 required this week			
Formal Written Feedback 2 required this week			
ITaP 2 Review			
Abyasa Professional Task: EDI Task 2 (record on Abyasa)			

Professional Studies Theme(s)
Adaptive Teaching (ITTECF5) <i>Develop an understanding of different pupil needs</i> Managing Behaviour (ITTECF7) <i>Build trusting relationships. Motivate pupils.</i>
How to develop the essential skills
We recognise that it is not possible to build in practice opportunities in relation to every skill, and therefore, for this week, decide which skills you will: a) aim to observe in expert colleagues, b) discuss and explore in your mentor meetings, and c) aim to develop through trying a particular approach in your own practice and seeking feedback specifically on this. Please note: these skills will be revisited throughout the year, and thus there is no expectation that you develop all of these skills this week.
Essential Skills to focus on this week
Section 5 - Identifying pupils who need new content further broken down. - Making use of formative assessment. - Working closely with the Special Educational Needs Co-ordinator (SENCO) and other SEND specialists or expert colleagues. - Working closely with the Designated Safeguarding Lead. - Supporting pupils with a range of additional needs and using the SEND Code of Practice: 0 to 25 years, which provides guidance on effective school systems and approaches for identifying and supporting the special educational needs of pupils with SEND. - Utilising existing opportunities to engage with parents and carers to better understand pupils' individual needs (e.g. meetings with parents). Section 7 - Liaising with parents, carers and colleagues to better understand pupils' individual circumstances and how they can be supported to meet high academic and behavioural expectations. - Consistently applying the school's behaviour policy, including where individual pupils have an agreed tailored approach. - Supporting pupils to master challenging content, which builds towards long-term goals. - Providing opportunities for pupils to articulate their long-term goals and helping them to see how these are related to their success in school. Helping pupils to journey from needing extrinsic motivation to being motivated to work intrinsically.
Relevant research to link theory and practice
Appreciating the factors that lead to pupil motivation and reflecting on how this knowledge informs your teaching can foster inclusive practice in your teaching. By including strategies such as context-based learning and supporting students understand the relevance and importance of what they are learning teachers can support pupil progress. Further guidance on the main research findings is available at Willingham, D. T. (2009) Why don't students like school?

Week number	8	Week Commencing	08/12/2025

Observation notes 2 required this week			
Formal Written Feedback 2 required this week			
Confidence Checkpoint 2			
Foundation Phase Progress Record must have been completed by 12 th Dec			

Professional Studies Theme(s)
Professional Behaviours (ITTECF8) <i>Develop as a professional</i>
How to develop the essential skills
We recognise that it is not possible to build in practice opportunities in relation to every skill, and therefore, for this week, decide which skills you will: a) aim to observe in expert colleagues, b) discuss and explore in your mentor meetings, and c) aim to develop through trying a particular approach in your own practice and seeking feedback specifically on this. Please note: these skills will be revisited throughout the year, and thus there is no expectation that you develop all of these skills this week.
Essential Skills to focus on this week
Section 8 • Engaging in professional development focused on developing an area of practice with clear intentions for impact on pupil outcomes, sustained over time with built-in opportunities for practice. • Strengthening pedagogical and subject knowledge by participating in wider networks and as part of the lesson preparation process. • Seeking challenge, feedback and critique from mentors and other colleagues in an open and trusting working environment. • Engaging with research evidence by accessing reliable sources, seeking support for how findings can inform practice, and monitoring the impact of applications. • Reflecting on progress made, recognising strengths and weaknesses and identifying next steps for further improvement.
Relevant research to link theory and practice
Instructional coaching has a strong positive impact on the progress and pedagogic practice of trainee and early career teachers. The flow diagram on page two of this training plan provides a valuable framework for mentors and mentees to structure their conversations during lesson feedback. To support coaching conversations lesson observations are a valuable tool to support reflective practice. It is important to have non-judgmental conversations with expert teachers to discuss the pedagogic strategies that are used. It is imperative that a trainees observation notes go beyond a descriptive account of what they observed. Rather trainees should construct reflective accounts to prompt further coaching discussions. Professional development is most noticeable when teachers work as part of an active learning community. These themes are discussed in more detail in the EEF review of professional development of teachers available at Sims, S., Fletcher-Wood, H., O'Mara-Eves, A., Cottingham, S., Stansfield, C., Van Herwegen, J., & Anders, J. (2021). What are the characteristics of teacher professional development that increase pupil achievement? A systematic review and meta-analysis.

PGCE Secondary with QTS
Module Tasks and Deadlines

Task	Learning outcomes assessed
School Practice	Day to day teaching evidenced through Weekly training meeting, Formal Feedback from expert colleagues, mentor and PCM, and trainee observation of expert colleagues. All records are maintained on Abyasa and should be kept up to date on a weekly basis.
Progress Record	Record of progress made during phase recorded in Abyasa. Progress in all five Areas of Professional Learning is noted by the mentor. Trainees list evidence to support mentor when indicating progress made.
School Progress Presentation	Trainees reflect on illustrative evidence to demonstrate progress made in a selected section of the Core Content Framework.

Task	Date	Time
School Practice Progress	Weekly through placement	N/A
Foundation Phase Progress Record	12/12/2025	6pm
School Progress Presentation	17/12/2025	Confirm with Subject

****Please note, the completion date for the Foundation Phase Progress Record needs to include your reflective comments, your mentor's comments and then a final comment by your PCM. This will necessitate you completing the progress record up to one week earlier than the final stated date.***
