

Reflecting on the ITTECF

- It is a requirement of this course that you make progress against each section of the ITTECF.
- As we said in your Abyasa session you will be monitored weekly. You will need to demonstrate that you are “on track” in 4/5 areas of the ITTECF by December to be eligible to move on to the development phase. Use this context to guide your reflections in this session.

Initial Teacher Training and Early Career Framework

High Expectations (Standard 1 – Set high expectations)

How Pupils Learn (Standard 2 – Promote good progress)

Subject and Curriculum (Standard 3 – Demonstrate good subject and curriculum knowledge)

Classroom Practice (Standard 4 – Plan and teach well structured lessons)

Adaptive Teaching (Standard 5 – Adapt teaching)

Assessment (Standard 6 – Make accurate and productive use of assessment)

Managing Behaviour (Standard 7 – Manage behaviour effectively)

Professional Behaviours (Standard 8 – Fulfil wider professional responsibilities)

In your Diamond 9 activity rank the following statements from most important to least

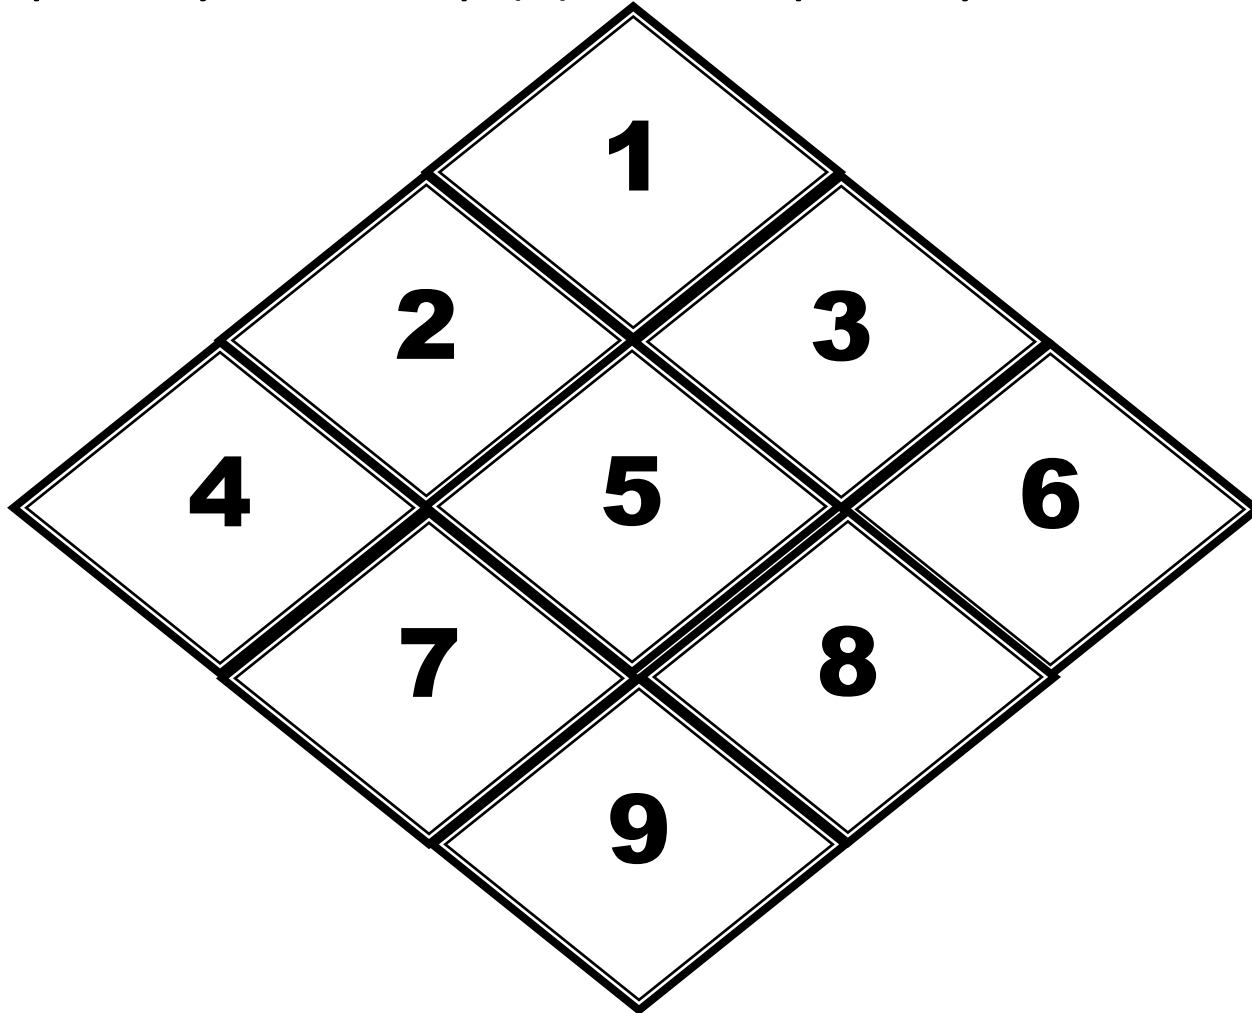

- You support your children in developing a love and passion for science. (ITTECF 3)
- You ensure you include regular feedback in your lessons that allows pupils to identify their current understanding and how to progress. (ITTECF 6)
- You tailor your teaching to meet the emergent needs in your lesson. (ITTECF 4,5)
- You follow the school behaviour policy explicitly (ITTECF 1 AND 7)
- You regularly communicate with parents/carers about the progress their child is making.(ITTECF 8)
- You understand educational theory on how pupils learn and apply this to your teaching (ITTECF 2).
- You complete you lesson within the timeframe allowed making purposeful use of the allocated time in your lesson. (ITTECF 4)
- You adapt your lesson based on the feedback you are getting, and if pupils don't understand, you revise what you planned to support pupil comprehension. (ITTECF 4 and 6)
- You manage your own wellbeing, mental and physical health, creating professional boundaries between personal and work time.

Diamond 9 activity

- **Purpose:** A teaching and learning technique used to help students prioritise, discuss, and arrange ideas, values, or information in order of importance.
- **How it works:** Participants are given nine items or statements and place them in a diamond-shaped template. The most important items are placed at the top, and the least important are at the bottom.
- **Benefits:** The activity encourages critical thinking, higher-order thinking skills, teamwork, and collaborative discussion.

Rank the ITTECF areas in terms of priority for your development
as a teacher.

Highest priority at the top (1), lowest priority at the bottom (8).

Which of the ITTECF sections do you feel you would need most support with?
Which would you be able to achieve more easily without support?

Review this ranking and compare it with your diamond 9 activity. For example, if you said following the behaviour policy was a low priority yet you ranked that as something you will find challenging, are you going to fulfil this requirement that you need to meet? How are you going to manage these challenges while also looking after your wellbeing? Who are you going to go to for support and how?

Initial Teacher Training and Early Career Framework

High Expectations (Standard 1 – Set high expectations)

How Pupils Learn (Standard 2 – Promote good progress)

Subject and Curriculum (Standard 3 – Demonstrate good subject and curriculum knowledge)

Classroom Practice (Standard 4 – Plan and teach well structured lessons)

Adaptive Teaching (Standard 5 – Adapt teaching)

Professional Behaviours (Standard 8 – Fulfil wider professional responsibilities)

Setting SMART targets

 Specific	 Measurable	 Attainable	 Realistic	 Time-bound
Do: Set real numbers with real deadlines. Don't: Say, "I want more visitors."	Do: Make sure your goal is trackable. Don't: Hide behind buzzwords like, "brand engagement," or, "social influence."	Do: Work towards a goal that is challenging, but possible. Don't: Try to take over the world in one night.	Do: Be honest with yourself- you know what you and your team are capable of. Don't: Forget any hurdles you may have to overcome.	Do: Give yourself a deadline. Don't: Keep pushing towards a goal you might hit, "some day."

Set some SMART targets to help you achieve the ITTECF standards

- Are they specific? Do you give a time frame by when you will achieve this target?
- Are they manageable?
- Construct a SMART target that you will achieve by Wednesday 1st October. You will have had two days in school by then so think about how you want to start your placement.
